   a. The Library is now on Facebook.
   b. Credo Reference is now linked through the library website. It is a general database, online reference collection with a good interface. Has a great tool for “concept mapping.” Includes: Audio clips, video, art galleries, etc.
   c. Subject Guides on library website will be changing to LibGuides. The library already has it, but it is not on our library website yet because it is still in the development stages. You can access it at libguides.com by following the Wilkes link.
