Notice of Creditable/Non-Creditable Coverage for Wilkes University

1/1/2026 through 12/31/2026

Creditable Prescription Plan Options:
PPO 400, HDHP HSA 2000
Non-Creditable Prescription Plan Options:
None

This notice applies only to Medicare-eligible individuals. The employee/primary insured is responsible for providing this notice to all family members who are or who will soon become Medicare eligible. If you or your covered dependents are not eligible for Medicare now or within the next 12 months, you may disregard this notice.

Wilkes University has determined the prescription drug coverage creditability for our benefit plan options as described above. "Creditable Coverage" means that the Plan is expected to pay, on average, **as much or more** for prescription drugs than standard Medicare Part D coverage. "Non-Creditable Coverage" means that, on average, the Plan **is NOT expected to pay out as much as standard Medicare prescription drug coverage pays.**

Having creditable coverage is important because it ensures **you will not pay a late enrollment penalty if you decide to enroll in Medicare Part D later**. Even if you have creditable coverage, however, note that a break in creditable coverage of **63 continuous days or longer** before enrolling in a Part D plan may result in higher monthly Part D premiums based on how many months you went without creditable coverage. For example, a 19-month period without creditable prescription drug coverage is generally expected to result in a 19% higher Part D monthly premium. **It is therefore important to avoid going too long without creditable coverage.**

Although Part D is available to everyone with Medicare, it can only be obtained at certain times. For example, you can join a Medicare drug plan when you first become eligible for Medicare (e.g., when you turn age 65) or during an annual enrollment period from Oct. 15 through Dec. 7 each year after you turn 65 (which, it should be noted, is different than the general enrollment period for Medicare Part B that runs from each Jan. 1 to Mar. 31, with coverage effective the following July 1). Part D enrollment outside the above times is prohibited except when you experience an event that triggers a Special Enrollment Period, for example during the 60-day period following the involuntary loss of coverage (e.g., the loss of employment-based coverage upon retirement). Questions about these options and when you are eligible to enroll in Medicare part D should be directed to CMS (see below).

For more information about this notice or the coverage provided under this Plan, please contact:
Kathy Malcolm, 570-408-4644, katherine.malcolm@wilkes.edu
84 West South Street, Wilkes-Barre, PA 18766

For more information about your Medicare Part D options, please visit www.medicare.gov, or www.SHIPhelp.org, or call 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048.

*****Please keep this notice for your records, which you may need when enrolling in Medicare prescription drug coverage to demonstrate the creditability of this coverage if you were enrolled in a creditable plan.*****

Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit **www.healthcare.gov**.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or **www.insurekidsnow.gov** to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, contact the Department of Labor at **www.askebsa.dol.gov** or call **1-866-444-EBSA (3272)**.

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of July 31, 2026. Contact your State for more information on eligibility –

NOTICE OF HIPAA SPECIAL ENROLLMENT RIGHTS

This notice is being provided to make certain that you understand your right to apply for group health insurance coverage. You should read this notice even if you plan to waive coverage at this time.

Loss of Other Coverage

If you are declining coverage for yourself or your dependents (including your spouse) because of other health insurance or group health plan coverage, you may be able to enroll yourself and your dependents in this plan if you or your dependents lose eligibility for that other coverage (or if the employer stops contributing toward your or your dependents' other coverage). However, you must request enrollment within 30 days after your or your dependents' other coverage ends (or after the employer stops contributing toward the other coverage).

Example: You waived coverage under this Plan because you were covered under a plan offered by your spouse's employer. Your spouse terminates his employment. If you notify your employer within 30 days of the date coverage ends, you and your eligible dependents may apply for coverage under this Plan.

Marriage, Birth, or Adoption

If you have a new dependent as a result of a marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your dependents. However, you must request enrollment within 30 days after the marriage, birth, or placement for adoption.

Example: When you were hired, you were single and chose not to elect health insurance benefits. One year later, you marry. You and your eligible dependents are entitled to enroll in this Plan. However, you must apply within 30 days from the date of your marriage.

Medicaid or CHIP

If you or your dependents lose eligibility for coverage under Medicaid or the Children's Health Insurance Program (CHIP) or become eligible for a premium assistance subsidy under Medicaid or CHIP, you may be able to enroll yourself and your dependents. You must request enrollment within 60 days of the loss of Medicaid or CHIP coverage or the determination of eligibility for a premium assistance subsidy.

Example: When you were hired, your children received health coverage under CHIP and you did not enroll them in this Plan. Because of changes in your income, your children are no longer eligible for CHIP coverage. You may enroll them in this Plan if you apply within 60 days of the date of their loss of CHIP coverage.

The Newborns' and Mothers' Health Protection Act
PLAN YEAR 2027

The Newborns' and Mothers' Health Protection Act of 1996 (NMHPA) provides protection for mothers and newborn children relating to the length of their hospital stay following childbirth.

Group health plans and health insurance issuers may not restrict benefits for a hospital stay in connection with childbirth to less than 48 hours following a vaginal delivery, or 96 hours following a delivery by cesarean section.

However, the attending provider may decide, after consulting with the mother, to discharge the mother and/or her newborn earlier than 48-hour (or 96-hour as applicable). A plan cannot deny a mother or her newborn child coverage for a 48-hour stay (or 96-hour stay) because the plan claims that the mother or her attending provider has failed to show that the 48-hour stay (or 96-hours stay) is medically necessary.

However, plans generally can require an individual to notify the plan of the pregnancy in advance of an admission in order to use certain providers or facilities or to reduce the individual's out-of-pocket costs.

Patient Protection Disclosure
PLAN YEAR 2027

Wilkes University generally requires the designation of a primary care provider. You have the right to designate any primary care provider who participates in our network and who is available to accept you or your family members.

For children, you may designate a pediatrician as the primary care provider.

You do not need prior authorization from Wilkes University from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals.

For information on how to select a primary care provider, obtain a listing of participating primary care physicians, or for a list of participating health care professionals, who specialize in obstetrics or gynecology, contact Katherine Malcolm at (570) 408-4644.
