

FAQ – HOW DO I CONNECT AN IoT DEVICE TO COLONEL?

Purpose

The guide outlines the steps to connect a smart TV or gaming console to the Colonel wireless network

Requirements

Access to a device that is already connected to the Wilkes network

Notes

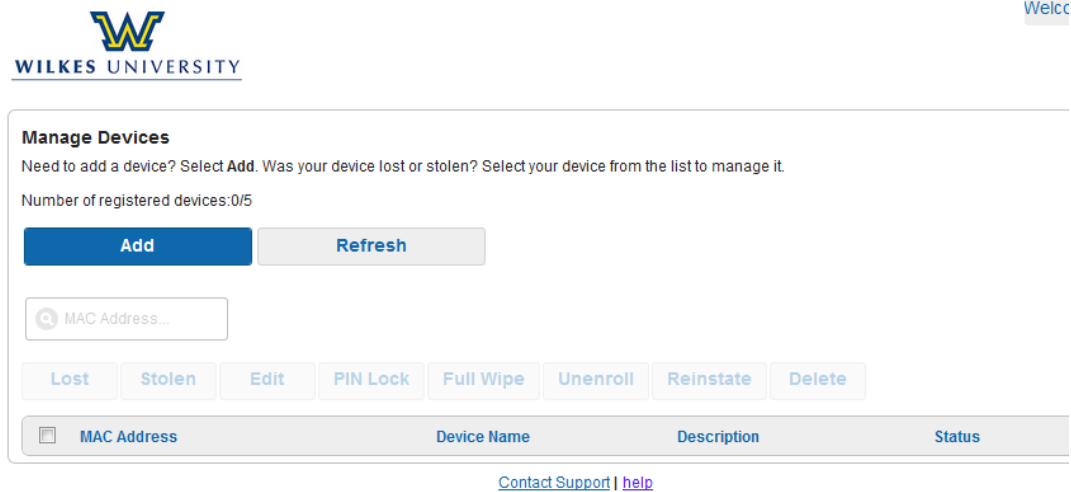

IoT devices include gaming consoles, TVs, printers

Process

1. Gather the wireless MAC address of your device (a web search should return instructions on how to do so)
2. From a computer that is already connected to the Wilkes network, browse to <https://mydevices.wilkes.edu> (you will likely receive a warning that this site is not safe, simply select whatever option allows your web browser to proceed to the site). Log in with your Wilkes user name and password

FAQ – HOW DO I CONNECT AN IoT DEVICE TO COLONEL?

3. Click Add

Manage Devices

Need to add a device? Select **Add**. Was your device lost or stolen? Select your device from the list to manage it.

Number of registered devices: 0/5

Add **Refresh**

MAC Address...

Lost **Stolen** **Edit** **PIN Lock** **Full Wipe** **Unenroll** **Reinstate** **Delete**

MAC Address	Device Name	Description	Status
-------------	-------------	-------------	--------

4. Enter your Device Name and Device ID. The Device ID is the wireless MAC address that you gathered in step 1. The Description field is optional

Add Device

To add a new device, enter the device ID, which displays on your device as the MAC or Wi-Fi address. It consists of 6 alphanumeric number pairs separated by colons such as AA:BB:CC:11:22:33.

Device name: *

PlayStation

Device ID: *

AA:BB:CC:DD:EE:FF

Description:

My PlayStation
