FAQ – How do I connect to Student.Wilkes.edu using Android?				

Purpose

This guide details the steps to connect to the Student.Wilkes.edu wireless network using an Android device.

Requirements

1. An active Wilkes account
2. An Android based smartphone or tablet

Notes

- If your device is currently connected to a different Wilkes wireless network, you may first need to forget the connection. To forget a connection, keep your finger pressed on the connection you would like to forget, and when prompted, choose **Forget Network**.
- When you change your Wilkes account password, you will need to update your device with your new password to avoid locking out your account.

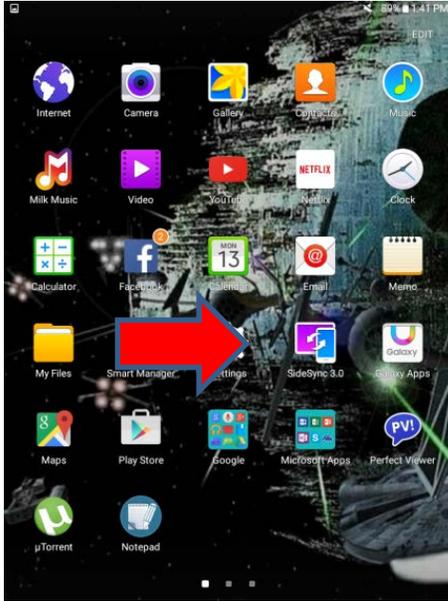

Process

1. From the **Home** screen, click the **Applications** icon. This may vary, depending on the configuration of your device.
