

Career Services

Students are encouraged to become proactive in their career development throughout their time at Wilkes by becoming engaged with the professional staff and offerings of the Center for Career Development and Internships, located at rear 236 S. River Street by the Student Center Gateway. Consultations, events, and career education programs are offered each semester to all class levels and all majors. An academic internship program is also housed there. Students can access the Center via www.wilkes.edu/career and by utilizing the Wilkes Handshake program and app at www.joinhandshake.com.
